Culture, Mind, and Society

The Book Series of the Society for Psychological Anthropology

The Society for Psychological Anthropology—a section of the American Anthropology Association—and Palgrave Macmillan are dedicated to publishing innovative research that illuminates the workings of the human mind within the social, cultural, and political contexts that shape thought, emotion, and experience. As anthropologists seek to bridge gaps between ideation and emotion or agency and structure and as psychologists, psychiatrists, and medical anthropologists search for ways to engage with cultural meaning and difference, this interdisciplinary terrain is more active than ever.

Series Editor

Peter G. Stromberg, Department of Anthropology, University of Tulsa
